SUMMARY:

I am Recent B.Sc. graduate with strong foundational knowledge in Java programming, object-oriented principles, and data structures. I am proficient in developing console based and basic web applications using Java, JDBC, and MySQL. Fast learner, team player, and passionate about continuous learning in Java technologies.

TECHNICAL SKILLS:

- **Frontend** – HTML, CSS, Angular, TypeScript
- **Backend** - Java, SpringBoot
- **Database** – MySql

EXPERIENCE (INTERNSHIP):

Company Name: AMHAWKS Technologies Private Limited

Duration: October/2025 – July/2026

Currently working as a Software Developer Intern, focusing on application development.

- Developed enterprise applications using Core Java and Spring Boot.
- Built and integrated RESTful APIs.
- Implemented business logic and optimized application performance.
- Collaborated with teams using Git and Azure.
- Developing and maintaining web applications using Angular, TypeScript, HTML, and CSS.
- Collaborating with the development team and using Git for version control.

PROJECTS:

ERP Backend System – Employee Management.

Technologies: Java, Spring Boot, MySQL

Project Description:

Developed a backend system for managing employee data as part of an ERP solution. Implemented RESTful APIs for CRUD operations, user authentication, role-based access control, and data validation. Used Spring Boot for modular development and integrated MySQL for persistent data storage.

Roles & Responsibilities:

- Designed and developed REST APIs using Spring Boot for employee management
- Integrated MySQL with JPA/Hibernate for data persistence
- Implemented JWT-based authentication and role-based authorization
- Handled error management and input validation to ensure API robustness
- Collaborated with frontend/API consumers for seamless integration
- Wrote modular, clean code following MVC architecture

Key features:

- Employee creation, update, retrieval, and deletion through REST APIs
- Efficient data access and management using JPA and MySQL
- Clean codebase following MVC principles and best practices

IMS(Chitti) – Investment Management System

Technologies: Angular

Project Description:

Developed a web-based Chit Fund Management System to automate and manage the complete chit fund lifecycle. The application enables chit creation, member management, subscriptions, auctions, installment collection, payment processing, receipts, and reporting.

Roles & Responsibilities:

- Developed responsive UI components and integrated REST APIs using Angular
- Implemented and enhanced modules such as Payment Gateway, Payment Desk, and Installments.
- Performed bug fixing, form validations, and feature enhancements to improve application performance
- Collaborated with the development team using Git and Agile methodology for development, testing, and deployment.

Key features:

- Member & Subscription Management
- Auction & Installment Management
- Payment Gateway & Receipt Generation
- Role-Based Access Control with Multi-Tenant Support

User Registration & Login Management System

Technologies: HTML, CSS, Angular

Project Description:

Developed a user authentication and management application consisting of a login system, user registration, confirmation page, and a user dashboard. The application validates user inputs, securely manages user credentials, and displays registered user details through an interactive dashboard interface.

Roles & Responsibilities:

- Developed user registration and login modules with Angular components and routing
- Implemented form validations including mandatory fields, age (18+), mobile number, and password confirmation
- Designed a dynamic user dashboard to display registered users
- Implemented popup modal and drag-and-drop functionality for user interaction

Key features:

- Secure login and user registration system
- Form validation with success confirmation messages
- Dynamic dashboard displaying all registered users

EDUCATION:

- Perceived Post graduation in Bachelor of Science (BSC) from Kakatiya university with 7.23 GPA aggregate.
- Completed Intermediate from State board of intermediate education Telangana with 82.8 %
